RESPONSE SPECIES ELECTION

Sir:

Pursuant to the election requirement imposed in the Official Action dated January 8, 2007, Applicants elect the claims of Species I, i.e., Claims 1-26 for continued prosecution herein.

CERTIFICATE OF FACSIMILE TRANSMISSION

I hereby certify that this paper is being facsimile transmitted to the U.S. Patent and Trademark Office on the date set forth below.

Dated: February 8, 2007

Thomas Spinel

g:\olympus\1494\17154\amend\17154.aml

Claims 1-34 are present in the above-captioned application and have been subjected to a species election under 35 U.S.C. § 121. Specifically, the Official Action avers that the following patentably distinct species of the claimed invention are present in the claims:

Species I, characterized by Figures 1A-1D and 2;

Species II, characterized by Figure 3; and

Species III, characterized by Figures 4-7.

It is the Examiner's position that the species listed as Species I, II and III are patentably distinct from each other.

In response to the Examiner's requirement for species election, Applicants elect to prosecute the subject matter of Species I, Claims 1-26. However, Applicants reserve the right under 35 U.S.C. § 121 to file one or more divisional applications directed to the non-elected subject matter in this application.

In view of the foregoing, an examination on the merits of the elected claims, at an early date, is earnestly solicited.

Respectfully submitted,

Thomas Spinelli
